GRADING STANDARD

ONE SCALE.
NO SURPRISES.

Cosmetic grades match functional performance — a fleet buyer's grade means the same thing every time.

GRADE	COSMETIC CONDITION	FUNCTION & BATTERY
A+ as new	No visible marks. Indistinguishable from new under normal use.	Fully functional. Battery health ≥ 90%.
A excellent	Very light micro-marks, invisible at arm's length. No screen damage.	Fully functional. Battery health ≥ 88%.
B good	Light visible signs of use — minor scratches, no cracks.	Fully functional. Battery health ≥ 85%.
C fair	Clearly used — deeper scratches / marks, screen intact and clear.	Fully functional. Battery health ≥ 80%.

Grade thresholds shown are the proposed Mobilki standard — align final battery-health cut-offs and cosmetic wording with your actual QC before print. New (sealed) units are sold as **Brand New**, separate from the refurbished grades above.
